

Up We Go, Down We Go— Maths Fun All Around!

Ascending And Descending Order

Grade 1 learners enjoyed a fun and engaging Maths activity on **ascending and descending order**. Using numbers and hands-on learning, they practised arranging numbers from **smallest to biggest** and **biggest to smallest**. The activity made number learning exciting while developing their **number sense**, **sequencing skills**, and **confidence**.

“Climb **up** with numbers, step **down** with **fun**!”

Every **number** has its **place**,
that's how we win the **race**!

Learning Numbers, Building Futures!

“Small steps
in Maths,
big leaps
in growth.”

EXPLORING NUMBERS WITH FUN!

★ 123

Our young learners had a wonderful time exploring numbers and sequencing through a hands-on activity.

They arranged the numbers in the correct order with focus and joy!

This activity helped learners strengthen their number sense, improve concentration and build confidence.

Well done, everyone! Keep up the great work!
