INNOVATIVE SCHOOL

17th July , 2026

Splish, splash, and full of smiles!

What a marvelous day we had! Our little learners beat the heat and dove headfirst into our Preschool Splash Day. From water table discoveries and sponge tosses to running through the sprinklers, the playground was overflowing with laughter and giggles.

Today, our students practiced sharing, built their fine and gross motor skills, and explored early science concepts like floating, sinking, and splashing.
